

TEKNO MINI™ Collection

“FOR YOUR LIFESTYLE ON THE MOVE...”

Tekno Mini™ is a new genre of Crystal lighting. Many exclusive features were created by the international *james r. moder*® design team for the illumination of a world in motion.

Tekno Mini™ is the ultimate expression of functional art. Each Crystal creation is a source of brilliant, beautiful, cutting edge illumination. Like a living thing, light and color dance across the surface. A mysterious otherworldly glow transforms the most mundane places into beautiful spaces. Alive, never the same. These seemingly simple shapes take on an extraordinary and unexpected complexity as a clear white Krypton light ignites the Crystal with a chromatic fire.

The Tekno Mini™ collection is offered in a variety of shapes and colors in addition to 2 grades of high quality colored Crystal. We offer Tekno Mini™ trimmed with either Swarovski® crystals (-00), world renowned for its brilliance and quality, or our own Imperial™ Crystal (-22), stunningly beautiful, and an exceptional value. Tekno Mini™ is the result of almost 5 centuries of European Crystal development. It is this unique understanding of the mysterious interplay of Crystal and light that makes a groundbreaking innovation like Tekno Mini™ possible.

Interior Designers and end users can create unique color combinations on a semi-custom basis by actually choosing not only the Crystal color, but also the placement of individual Crystals. Each carefully selected pattern places one Crystal at a time to maximize the brilliant interplay of light and color. Soft luminous blues, which impart a gentle coolness to any room. Fiery reds, which inflame the passions and create an ambiance of warmth. Compelling combinations of green and blue, reminiscent of ancient Aztec pyramid paintings. An extensive selection of options are available, many of which can be seen in this guide.

It is this unrivaled versatility, beauty and exceptional value that sets Tekno Mini™ apart. For the aficionados seeking beauty and authenticity, the choice is obvious. Suddenly, your world is a more brilliant, beautiful place.
